Testimonial letter

Dear Sirs

We hereby confirm that Sutech Consultants and Sutech Engineering Co. Ltd provided valuable and professional design, management and consulting services to our sugar refinery projects as follows:

Project 1

1,100 TRD Refinery situated in Bangladesh in 2005.

Project 2

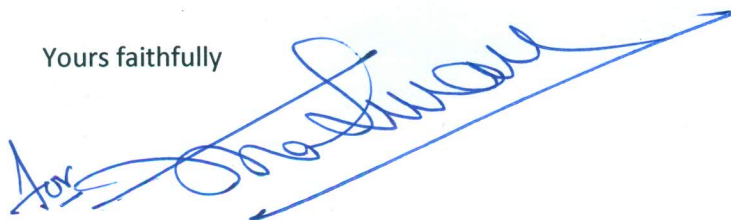

3,000 TRD Refinery in Bangladesh in 2009

The initial Sugar refinery project for our group was so successfully and professionally completed by Sutech that we had no hesitation in appointing them to manage the second refinery project.

In both projects Sutech carried out the entire management of these projects in an exemplary manner resulting in completion on time and within budget in both cases.

We can recommend Sutech Engineering for any sugar production projects to any potential Clients.

Yours faithfully

MD Hasan

Deputy Managing Director
