## C E R T I F I C A T I O N

From October/1988 to date we have engaged the services of the SUTECH GROUP OF COMPANIES in various areas of activity:

1. SUTECH CO., LTD.

- 1.1. Operations Audit of existing sugar factory and detailed project study/proposal for improving factory efficiency and increasing capacity from 6,800 TCD to 8,000 TCD. (1988-1989)
- 1.2. Subsequent consultancy on further increasing overall capacity and efficiency. Capacity is now 10,000 TCD average at 15% fibre. Capacities of 12,000+ TCD have been attained at lower fibre percentage. (1989-1993)
- 1.3. Consultancy and technical advise in the design, choice of process, and choice of equipment of a 700-ton sugar refinery. (1992-1994)
- 1.4. General design layouts, as well as technical drawings of machinery and equipment needed in the above mentioned projects. (1988-1994)
- 1.5. Supervision and assistance in the installation, erection, and commissioning of the above mentioned projects (1989-1994). This included the installation of a new mill tandem which we bought from SKODA. (Mill Feeders were designed by SUTECH.)
- 1.6. Advise on sourcing machinery and equipment. As an example, it was SUTECH that made us aware of the availability of the SKODA tandem at a very attractive price.
- 1.7. On-going technical advise whenever necessary.

2. SUTECH ENGINEERING CO., LTD.

- 2.1. Supply of equipment such as Filters, I.E.R. columns, etc.
- 2.2. Installation of equipment.

SUTECH's expertise in all the aforementioned areas has no doubt benefited our company. Their advise has been instrumental in the successful growth and diversification of our sugar production operations.

We have found the calibre of SUTECH staff to be at par with the best.

MIGUEL A. GASPAR
